(a) Internal Audit ("IA")

- The ARC has been entrusted by the Board to ensure effectiveness of the Group's internal control systems.
- In order to ensure the effectiveness of the system of internal controls, the Board has outsourced the internal audit functions of the Group to an external IA consultant.
- Reporting directly to the ARC, the said external IA provide assurance services with regards to the effectiveness of the internal control systems, assessment of the compliance to the Group's standard operating procedures, operational efficiency, reliability of system and information including systems for compliance with applicable law, regulations, rules, directives and guidelines.
- At the end of each audit exercise, meetings are to be conducted between the external IA consultant and senior management to discuss on audit issues and ensuring remedial actions are executed within an acceptable time-frame. The IA reports are to be tabled to the ARC for review on a quarterly basis and these reports are also deliberated by the Board.
- The activities of the outsourced Internal Auditors are reported regularly to the ARC which provides the Board with the required assurance in relation to the adequacy and integrity of the Group's internal control systems.

(b) Risk Management

- The ARC has been entrusted by the Board to identify, evaluate, monitor and manage any relevant major risk faced by the Group so that the Group will achieve its business objectives. However, the Board as a whole remains responsible for all the actions of the ARC with regard to the execution of the delegated role and this includes the outcome of the review and disclosure on key risks and internal control in the Company's annual reports.
- A sound risk management framework shall be established to govern the risk management system of the Group, pursuant to Recommendation 6.1 of the MCCG 2012.
- As outlined in the *Statement on Internal Control and Risk Management – Guidelines for Directors of Listed Issuers*, the Board recognises its role in relation to the risk management as follows:-
 - (i) The Board's focus on effective risk oversight is critical to setting the tone and culture towards effective risk management and internal control. The responsibilities of the Board for the governance of risk and controls include:-
 - Embedding risk management in all aspects of the company's activities;
 - Approving the Board's acceptable risk appetite; and

- Reviewing the risk management framework, processes, responsibilities and assessing whether they provide reasonable assurance that risks are managed within tolerable ranges.
- (ii) Reviewing the effectiveness of risk management and internal control is an essential part of the Board's responsibilities and will be performed at least annually. The Board will form its own view on effectiveness based on the information and assurances provided to it, and in doing so, it will exercise the standard of care generally applicable to directors in carrying out their duties. Management is accountable to the Board for implementing and monitoring the system of risk management and internal control and for providing assurance to the Board that it has done so.
- (iii) The Board will solicit formal feedback on the adequacy of risk management and internal control from the head of the internal audit function at least annually, and this should be based primarily on the scope and coverage of internal audit's remit for the year under review. The Board will also solicit the observations of the independent external auditor, recognising that such observations will generally be limited to risks and controls related to the financial statements.
- (iv) Management is responsible for implementing the processes for identifying, evaluating, monitoring and reporting of risks and internal control, taking appropriate and timely corrective actions as needed, and for providing assurance to the board that the processes have been carried out.
- (v) Annual Assurance by the Group MD and the Chief Financial Officer ("CFO")

In this regard, at least annually, the Board should receive assurance from the Group MD and the CFO on whether the Company's risk management and internal control system is operating adequately and effectively, in all material aspects, based on the risk management model adopted by the Company.

8.3 Appointment, Assessment and Removal of External Auditor

- Duties and responsibilities of assessing, recommending appointing/removing and determining remuneration for external auditor have been delegated to the ARC. Nonetheless, the appointment of external auditor is to be approved by shareholders, upon the recommendation made by the Board.
